

CASE HISTORY: Alaska CT Milling
Cement and One Composite Plug

3.700" MZ, Matrix/PDC Mill

600 ft of Cement control drilled at 60 fph with 1k WOB
Average 1.2 min per foot and drill composite plug in 20
minutes. 150-200 psi motor diff. Good for rerun.

Brief test to see how fast it would drill = 250 fph.
