

# CT Case History: Stuck WC Shoe on Top of RTTS Packer

GOM ~ December, 2011

## Fish:

2.300" x 1.550" Carbide Shoe and loose carbide debris on top of RTTS packer and down to the top slips.

Slip buttons are carbide buttons.

2.300" x 1.550" XDS, Diamond Impreg Burn Shoe cut through WC debris, through the stuck WC shoe head, through the top slip buttons, through the rubber elements, and about 2/3 the way through the bottom slip buttons before the packer released.

Milling time about 13 hours
