

Case History : Weatherford - North Dakota -Dec, 2011
Baker Frac Ports
3 3/4" MDX Diamond Mill

Based on previous runs of MD design we offered the MDX with updrill feature and diamond-impreg as backup for 1/4" depth into the blades.

First Run: 29 Frac Ports in about 22 hrs

Second Run: 29 Frac Ports in about 24 hrs

Used mill measured 3.740" which is within API tolerance.

Stalls not reported as a problem.
